WORK EXPERIENCE

Full Stack Developer

CONVICTI: Tecnologia e Desenvolvimento de Sistemas
Sep 2019 – Sep 2022

- Working for CONVICTI I was responsible to develop solutions to frontend and backend in multiple projects. Our frontend stack was Vue.js, jQuery and Bootstrap. Our backend stack was PHP (Codeigniter and Laravel). Also, I was responsible to delegate tasks to interns and review code from them. Besides that, since CONVICTI is a "software house" like company, I also participate in meetings with customers to understand and define the next features to be developed.

Internship – Full Stack Developer

Federal University of Fronteira Sul
Jun 2019 – Sep 2019

- Web developer, using tecnologies like Bootstrap, Python, Javascript, jQuery and Plone.

EDUCATION AND QUALIFICATION

Computer Science (Bachelor)

Federal University of Fronteira Sul
Jan 2016 – Jul 2020

PORTFOLIO

Mimicando: Android App made with React Native with more than 100K downloads in Play Store. (app available in Brazil)
Link: https://play.google.com/store/apps/details?id=net.ddns.artspon.mimicando

Palavrinhas: a multiplayer game built with Vue.js 3 and Firebase. Inspired by the famous game "Wordle".
